REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the claims are drawn to an isolated polynucleotide encoding a polypeptide having S-adenosylmethionine synthetase activity and having 90% sequence identity with SEQ ID NO:38 (support found on p. 8 of specification). Since SEQ ID NO:38 was first disclosed in PCT/US98/11692, Applicant shall have priority benefit of the filing date of June 5, 1998. The closest prior art teaches a sequence having 72.9% sequence identity with SEQ ID NO:38 (Schroeder et al., Plant Mol. Biol. 33:211-222, 1997 (U, see sequence search result 3)) and does not teach or suggest a sequence having 90% sequence identity. S-adenosylmethionine synthetase is involved in the biosynthesis of essential amino acids (p. 1 of specification). SEQ ID NO:38 contains a complete open reading frame encoding a complete protein. Accordingly, the claimed sequence is novel, has utility and complies with written description and enablement requirements under 35 USC 112, first paragraph.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Patent applicants with problems or questions regarding electronic images that can be viewed in the Patent Application Information Retrieval system (PAIR) can now contact the USPTO's Patent Electronic Business Center (Patent EBC) for assistance. Representatives are available to answer your questions daily from 6 am to midnight (EST). The toll free number is (866) 217-9197. When calling please have your application serial or patent number, the type of document you are having an image problem with, the number of pages and the specific nature of the problem. The Patent Electronic Business Center will notify applicants of the resolution of the problem within 5-7 business days. Applicants can also check PAIR to confirm that the problem has been corrected. The USPTO's Patent Electronic Business Center is a complete service center supporting all patent business on the Internet.

The USPTO's PAIR system provides Internet-based access to patent application status and history information. It also enables applicants to view the scanned images of their own application file folder(s) as well as general patent information available to the public. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>.

For all other customer support, please call the USPTO Call Center (UCC) at 800-786-9199.
